From the ANCC Web Site:

Q. What is the value of certification? *NAPNES holds this as TRUE – also, BUT FOR BOTH NURSING LICENSED PROFESSIONS*

A. Certification protects the public by enabling anyone to identify competent people more readily. Simultaneously it aids the profession (Both PN and RN) by encouraging and recognizing professional achievement (for Both PN and RN). Certification also recognizes specialization, enhances professionalism and, in some cases, serves as a criterion for financial reimbursement (for Both PN and RN). It may also foster an enlarged role within the employment setting (for Both PN and RN). Because certification of (for Both PN and RN) nursing practice signifies attainment of specific criteria and knowledge, skills, and abilities in a specific specialty field, certified nurses (for Both PN and RN) comprise a minority of the professional nurse population. **NAPNES will work to Advance Educate through Certifications and Standardized Curriculum for a majority of the Practical Nursing Profession.**
